PRESENTATION SKILLS

Sales Teams • Presenters • Trainers

Learn from Highly Experienced Professionals

Build Critical Presentation Skills for Training, Presenting, Selling, Teaching

Proven Skills

The LearningDesigns Presentation Skills Program offers a proven, powerful interactive model and equips professionals with the skills they need to make highly effective presentations. All presentations share common components - and potentially common pitfalls. Learn the keys to planning and delivering effectively. Get your audience involved. Encourage learning. Get your point across.

Deep, Practical Knowledge

Led by accomplished trainers, participants will learn skills and strategies that they can use to handle make delivering presentations and workshops more easily.

Customized to Address Your Organization's Needs

The program allows opportunities to practice skills tailored to your organization. Each program includes:

- Customized one and two day programs covering:
 - The three key components of planning a presentation
 - How to head off difficulties before they arise
 - How to encourage interaction regardless of the subject matter
 - Practice making presentations and receiving constructive feedback
- Post workshop follow-up and coaching

Consistent • Customizable • Proven • Market-Informed
